CHRONOLOGY™

a game for all time!

GAME RULES

Number of players: 2-8 players or teams.

Game Contents: 4 packs of 120 (Total 480) Chronology cards.
8 Timelock Markers.

Object of the game: To collect a total of ten cards in your own timeline by correctly guessing where each card should be placed in chronological order.

Setting Up: Break the seal on one pack of Chronology cards. The other packs can be opened later as required. You may shuffle the cards if you wish but this is not essential. Give each player a Timelock Marker.

To Start: Each player selects a single card from the pack and reads it aloud. This card becomes their start card and is placed face up, in front of the player and below the timelock. (See Figure 1)

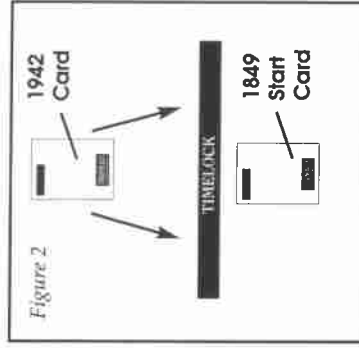

Play Begins: The youngest player goes first and the player to their right draws a card from the pack and reads the event from the card but **without revealing the date**.

The player has to decide whether the event in question occurred before or after their start card year. If the player answers correctly, they place the new card above the timelock marker, to the left or right (before or after) their start card. (See Figure 2)

If the card has been placed correctly, play continues with the same player. Another card is drawn and the event read aloud. The player decides whether this next event comes before, after, or in between the cards in his timeline. (See Figure 3)

After answering each question correctly, the player has an option. He may continue to play, or he may pass to the next player.
